

Instructions for downloading CineKlee Continuity software and opening the file with FileMaker Go on iPad/iPhone

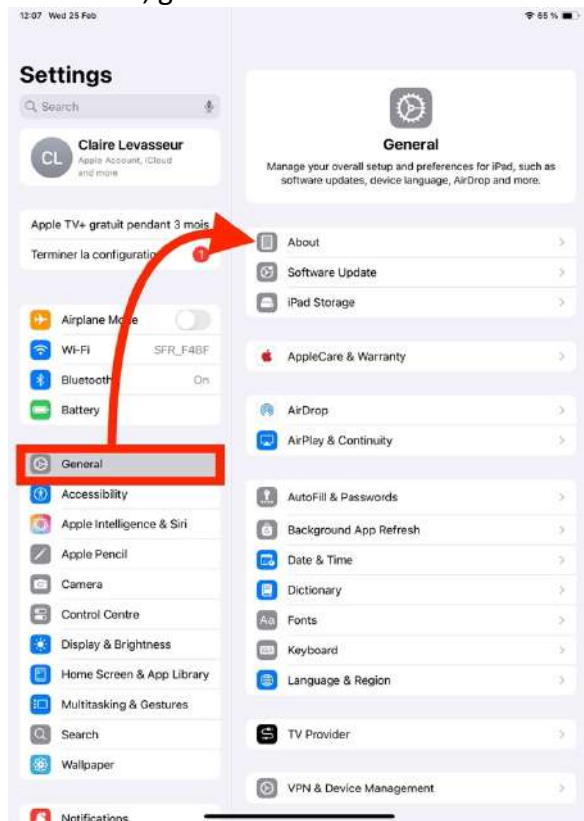

Prerequisite: check your iPadOS or iOS on iPhone:

Your iPadOS or iOS must be version 16 or higher in order to download FileMaker Go, the application you will use to open CineKlee Continuity.

Go to Settings

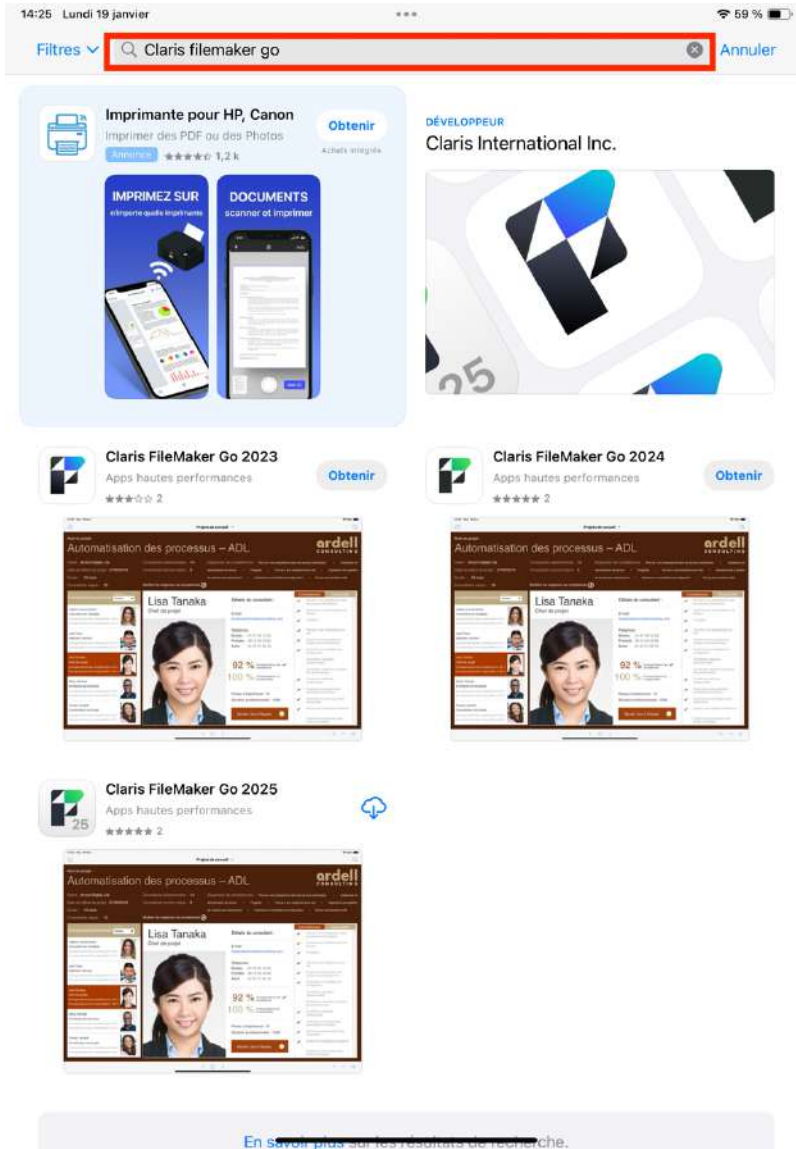

In General, go to About

Go to App Store

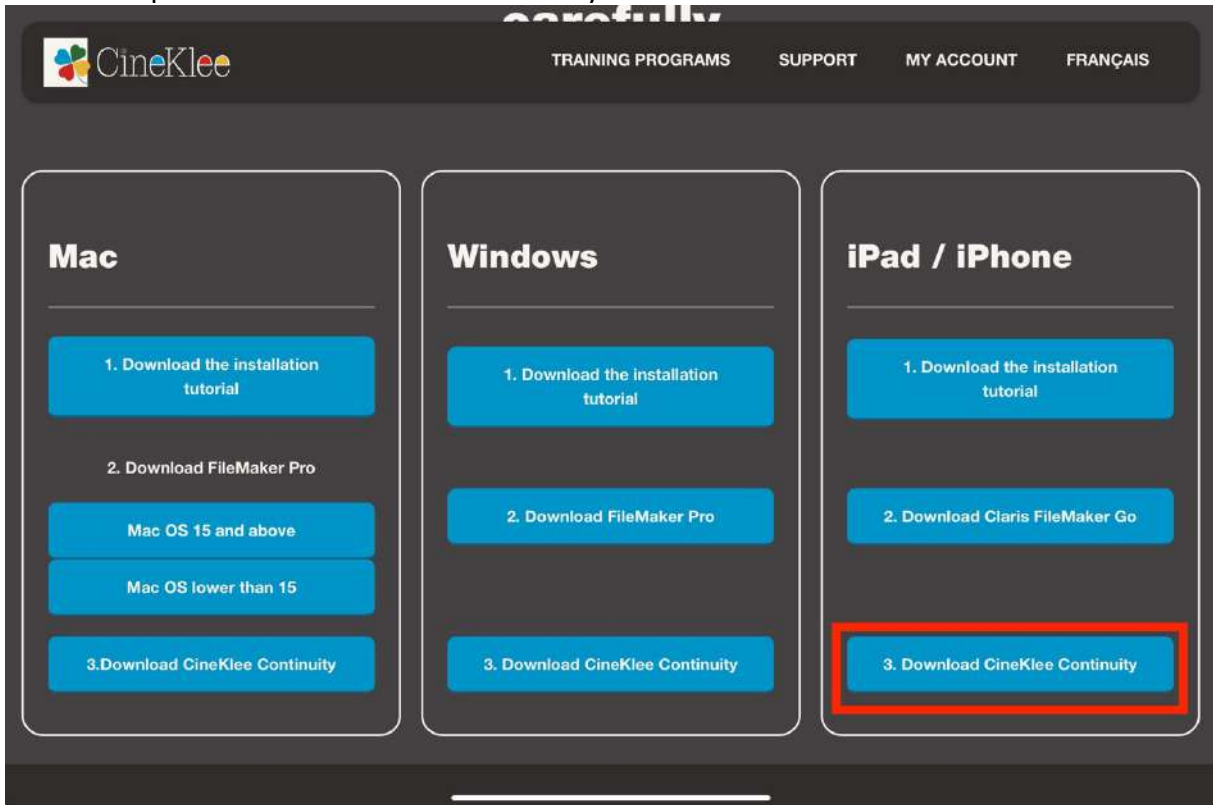

Search Claris FileMaker Go :

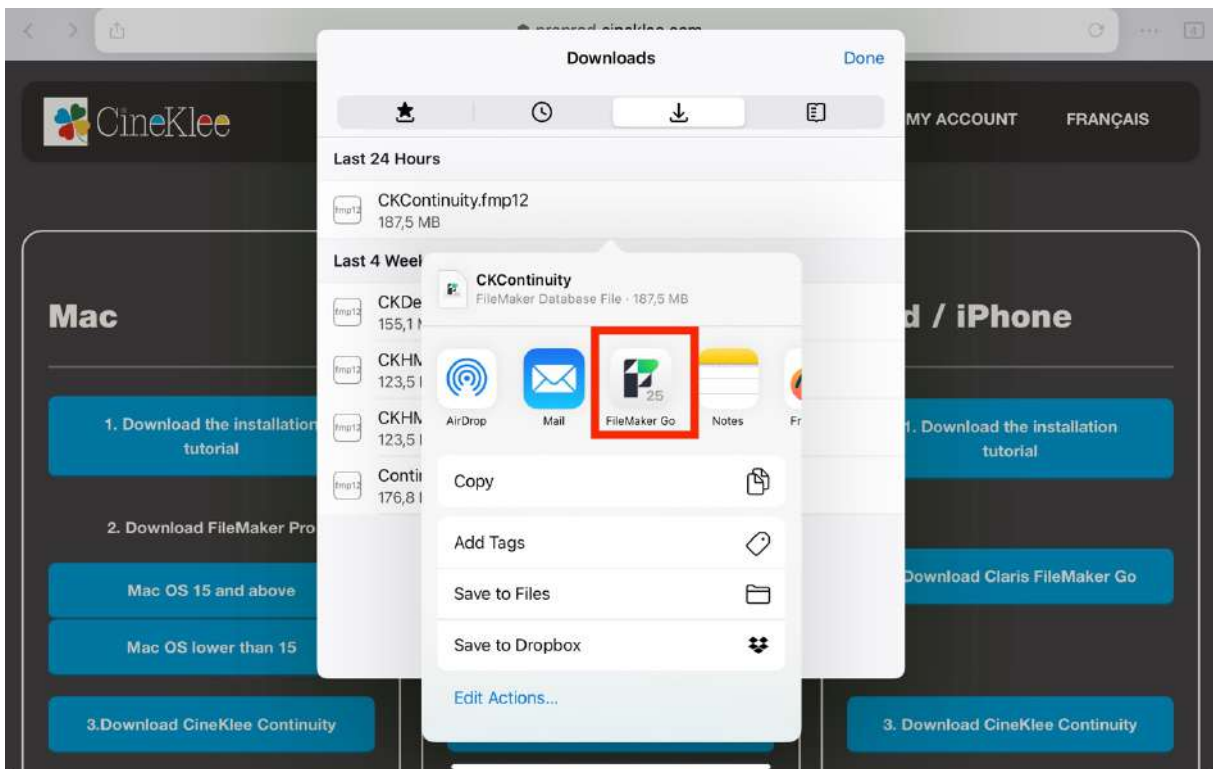

Depending on your iPadOS or iOS, download the correct version of FileMaker Go, preferably the most recent one. Normally, you can download FileMaker Go 2025 from iOS or iPadOS 17.

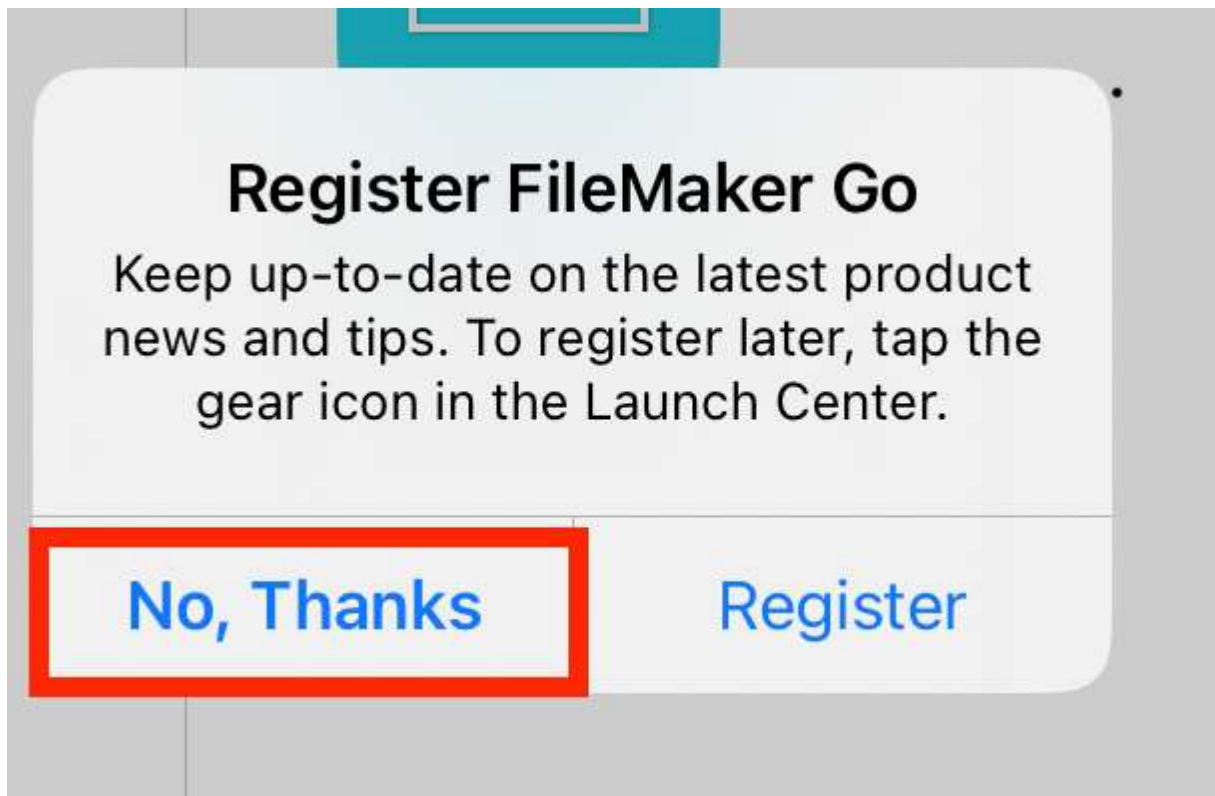

On the CineKlee website page where you downloaded these instructions, click on Step 3. Download CineKlee Continuity.

In your downloads, click on CKContinuity.fmp12 and select the FileMaker Go icon to open it in this application.

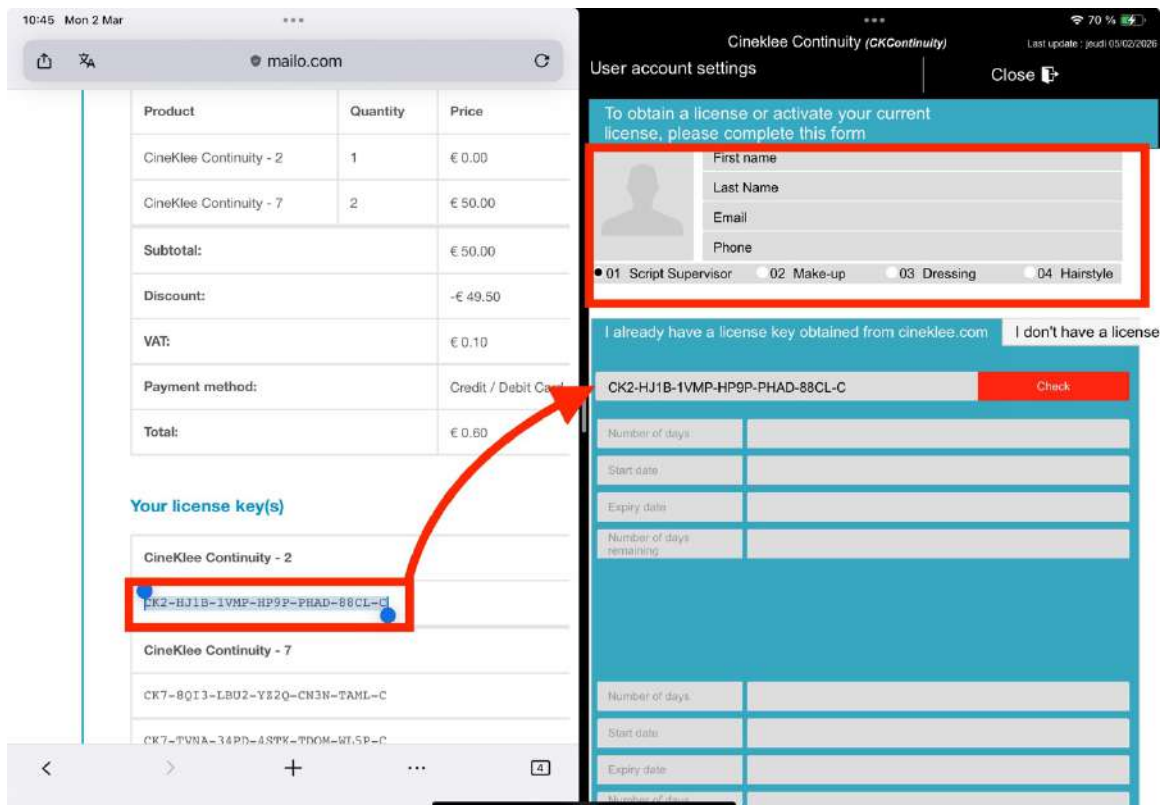

You do not need to register; skip this step by clicking No, Thanks.

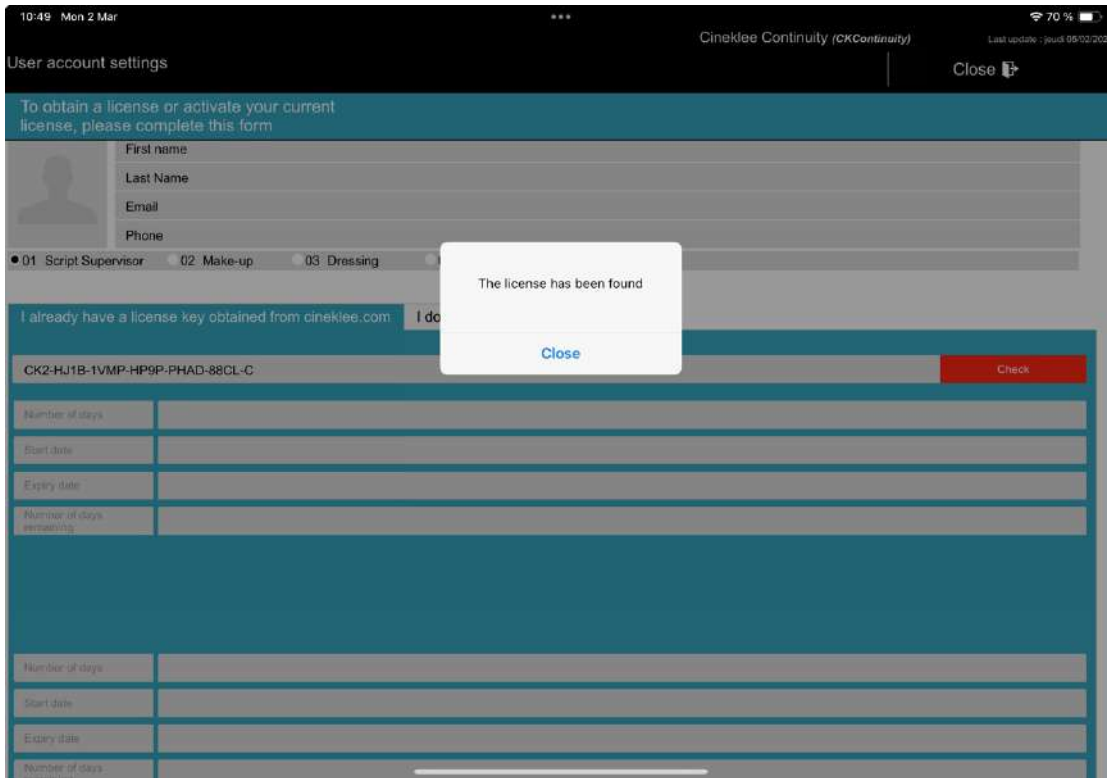

Fill in your details and select your profession.

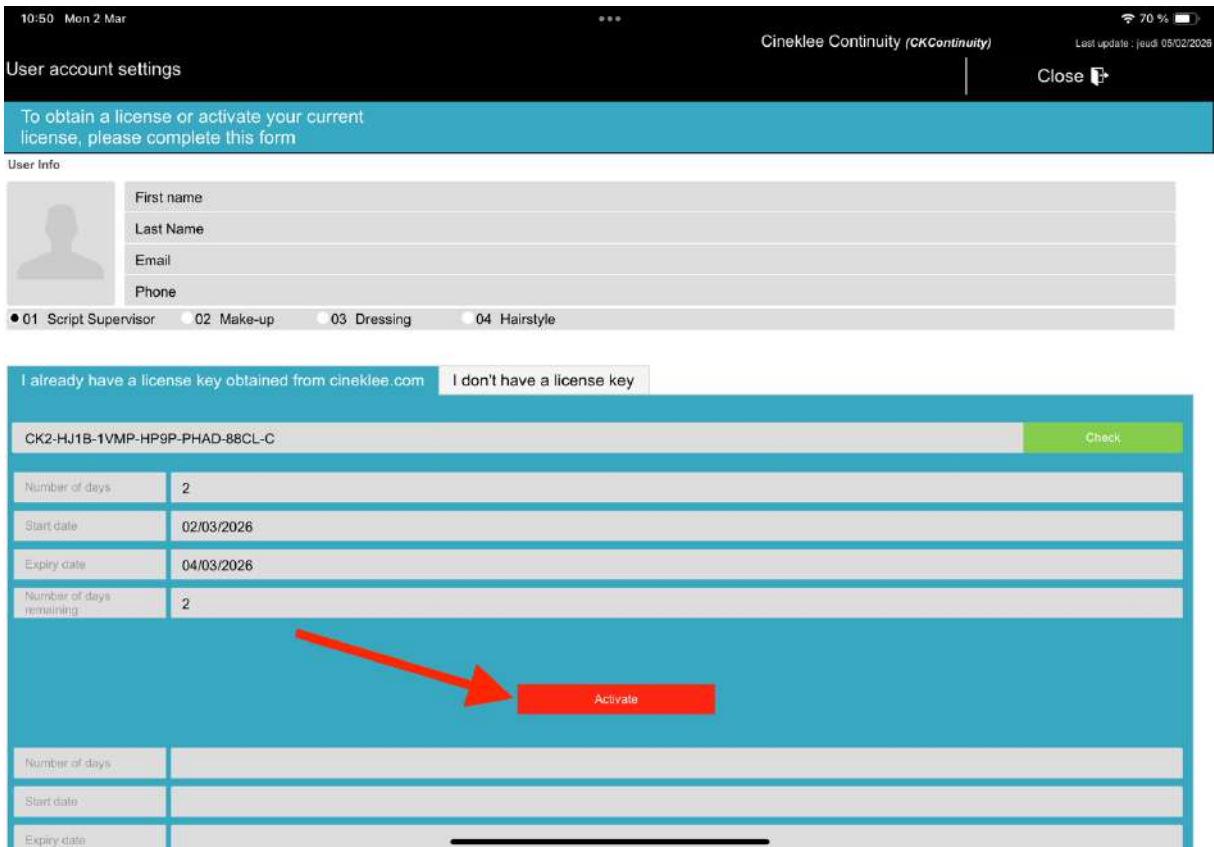

Then copy the license key you received by email into the box provided and click Check.

A message will appear indicating that the license has been found. Close the window.

Click Activate

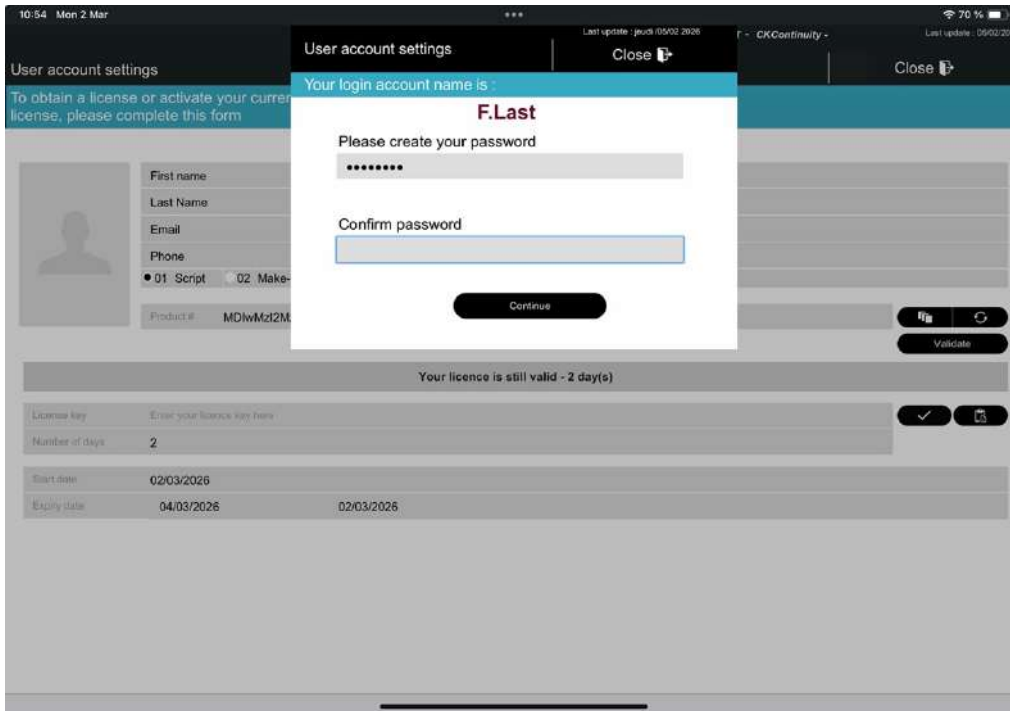

Your login account name is the first letter of your first name, a dot and your last name.

Example: John Smith = J.Smith

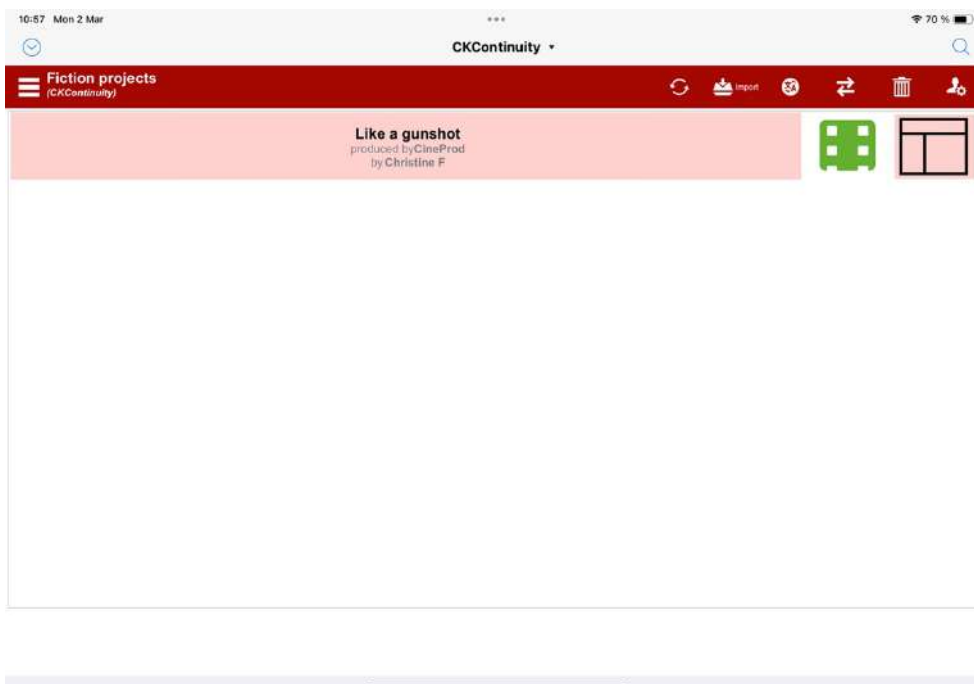

If your last name has two parts, only the first part will be retained.

Exemple : Sylvia Le Berre = S.Le

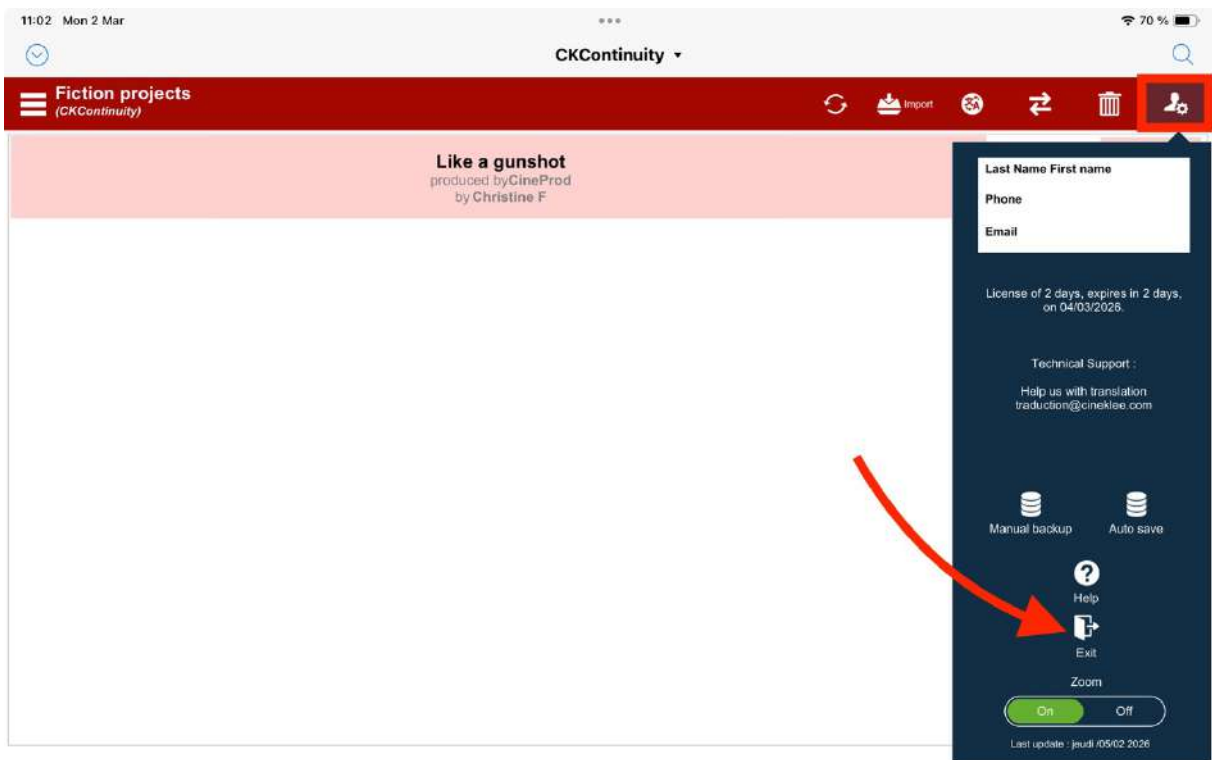

Choose your password and confirm it. Click on Continue.

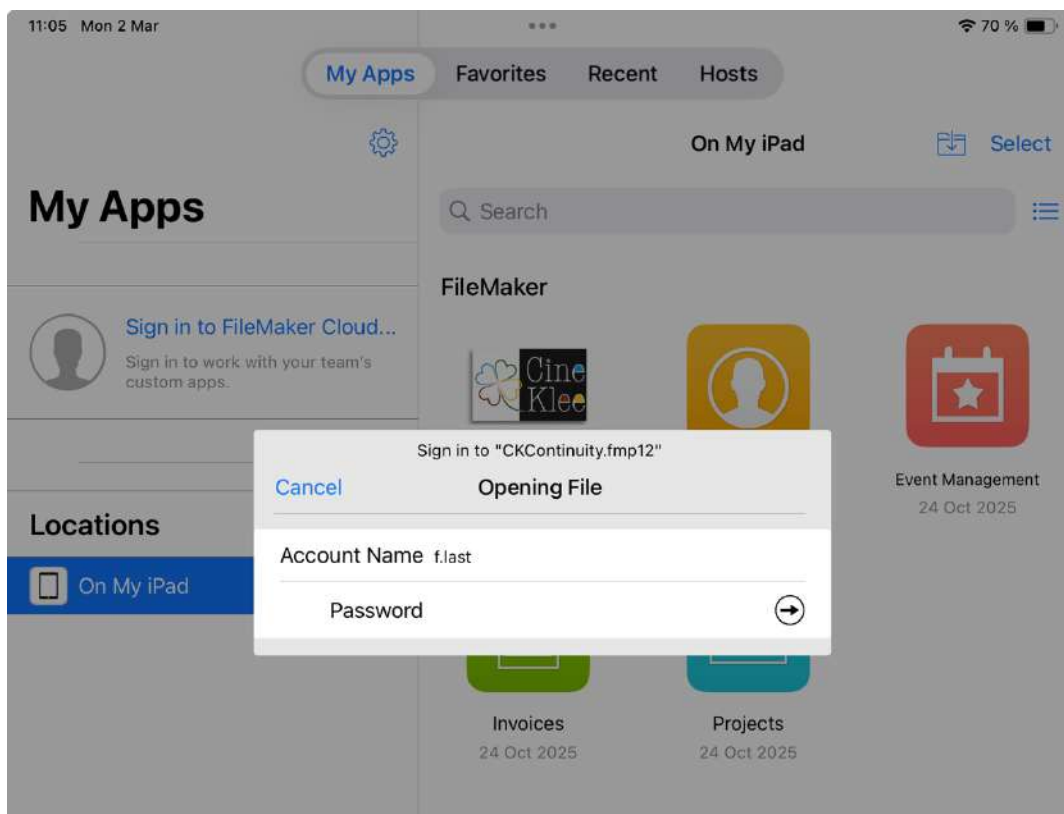

Welcome to CineKlee Continuity

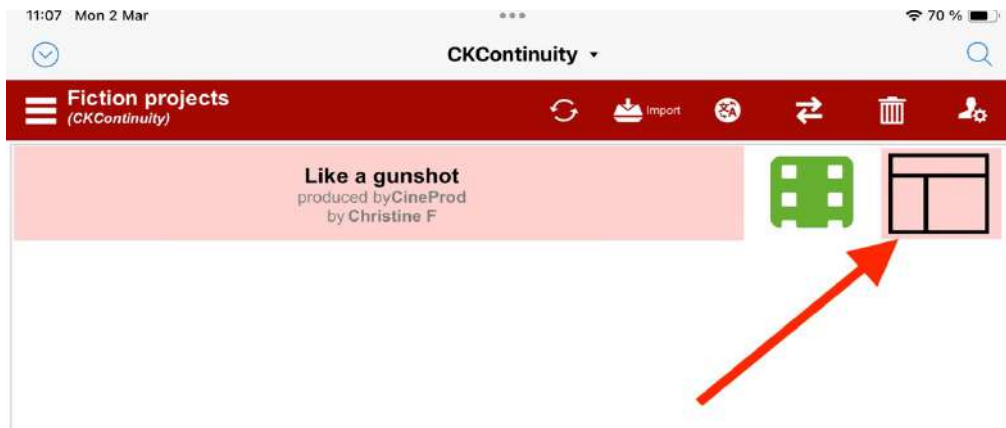

You can exit CineKlee Continuity via the user profile.

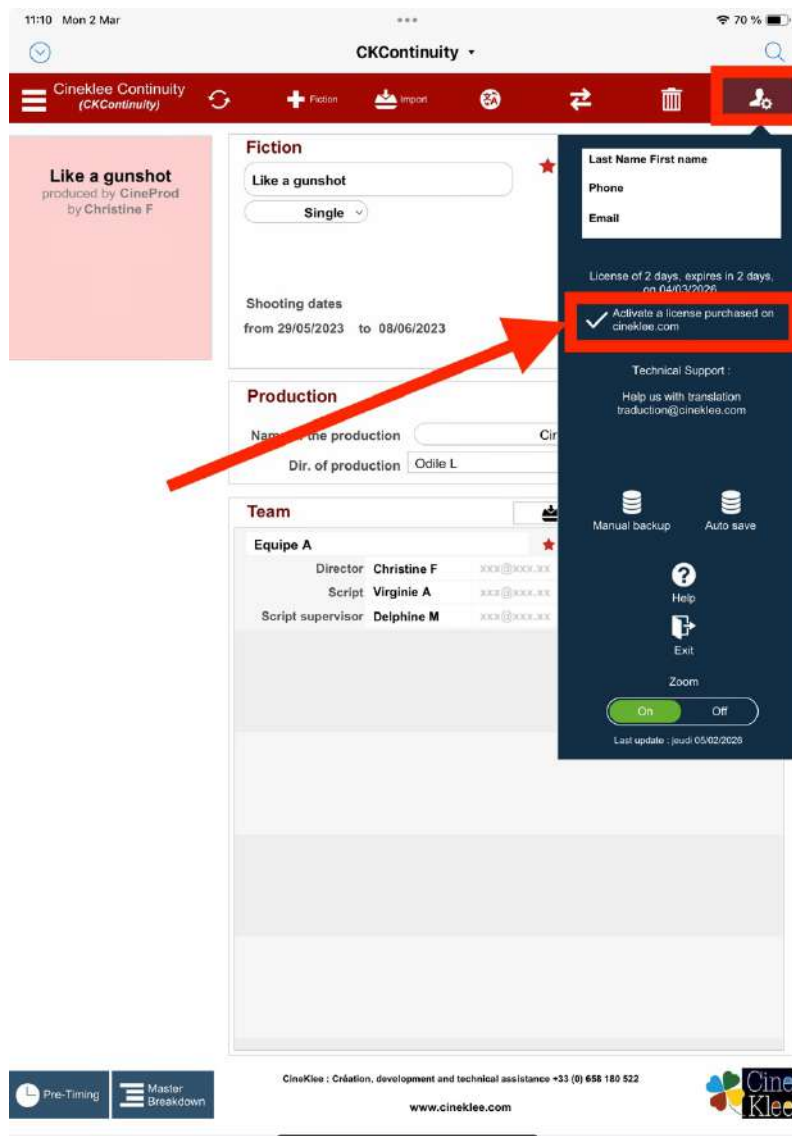

You will be taken to FileMaker Go. Click on CKContinuity, enter your account name and password to reopen your file.

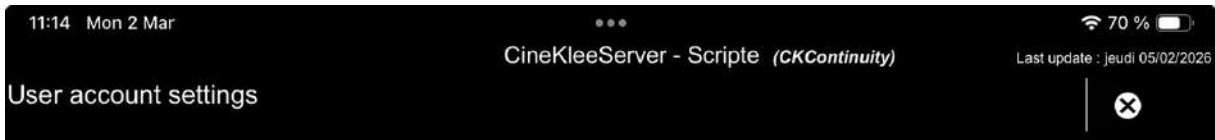

Your CineKlee Continuity will open. Go to the detailed “Project” page using the shortcut.

If you want to enter another licence key purchased from cineklee.com before the key expires, click on ‘Activate a licence purchased on cineklee.com’ in your user profile. You can also activate another key after your licence has expired when you need to, by clicking on ‘Licence’ when you open your software.

You will then be taken to the User account settings interface, where you can copy another key purchased from the website to activate it. The licence days will be added together automatically.
